Overall No. of visitors & exhibitors

Exhibitor and visitor's satisfaction level

- Over **78%** of exhibitors reached their participation objectives
- **82%** of exhibitor will consider to join the 2018 show
- **99%** of visitors were satisfied with their visit to the show

Based on Cinte Techtextil China 2018 exhibitor and visitor survey report– conducted by Wissler & Partner

- Demand for technical textiles and nonwoven products will keep rising due to
 - expanding infrastructure construction sector
 - accelerating urbanization
 - increasing awareness of environment protection

- The total output of technical textiles and nonwoven products is estimated to reach over 22 millions tons in 2020, double that of 2013.

- Growth will be seen especially in the following sectors in the coming 5 years.
 - Filtration & separation textiles
 - Medical & hygiene textiles
 - Geotechnical textiles
 - Structural reinforcement textiles
 - Transportation textiles
 - Protective textiles
