

# #Partnerships

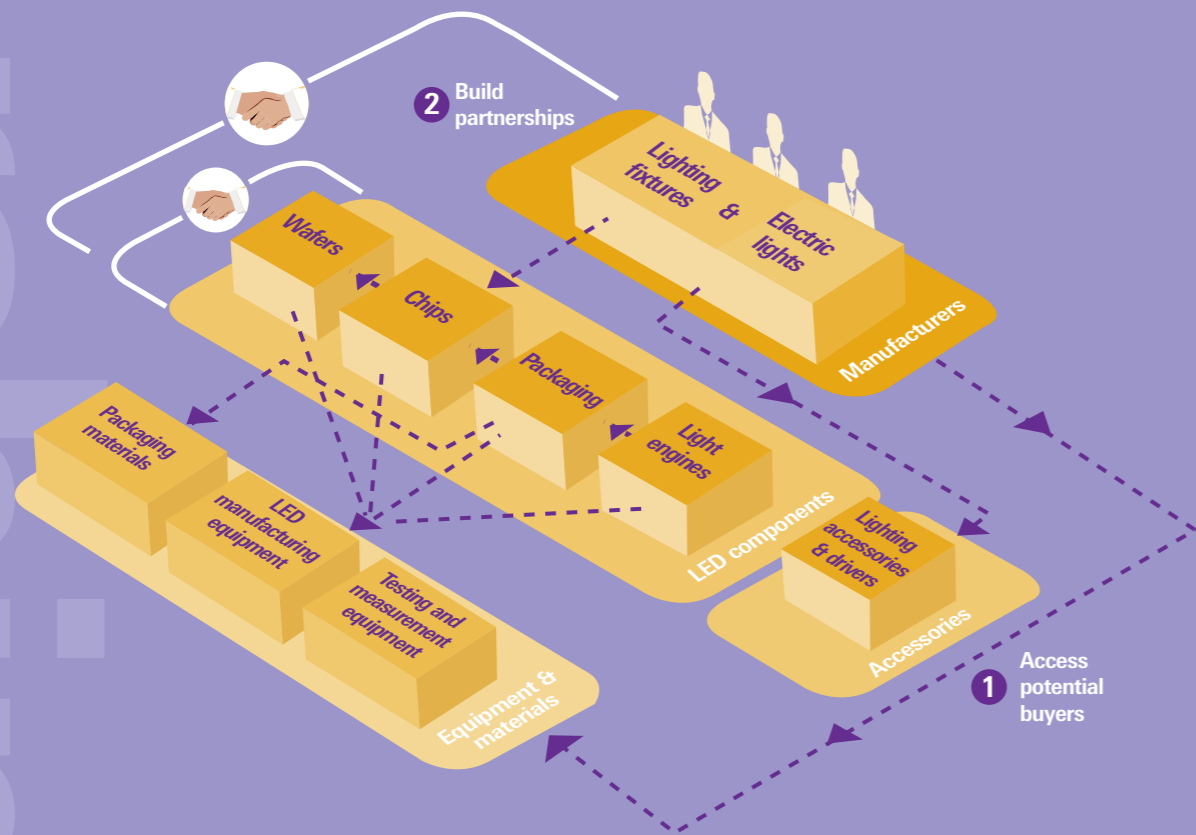

## Comprehensive LED value chain for business collaboration and generating sales leads

### Access buyers

LED Asia zone, showcasing an array of LED technologies, highlights LED integration into lighting applications. This one-stop sourcing concept clusters LED and lighting professionals, and expands your customer reach.

### Build partnerships

Manufacturers can establish business connections with industry counterparts and suppliers, enhancing their competitiveness.

## Connect with global industry organisations

“ We view the organiser as a strategic partner in helping us communicate the message of US lighting firms. The exhibitors we brought to the 2014 show have overwhelmingly expressed great satisfaction with the show’s quality, and a number of them have said they intend to come back to the show’s next edition. I truly believe the Guangzhou International Lighting Exhibition will grow greatly in the coming years. ”

Mr Gary L Stanley, Departmental Director, US Department of Commerce
