

## Taiwan Pavilion 台湾展团

展团历史 Edition	第七届 7 <sup>th</sup> edition
主办单位 Organiser	台湾区照明灯具输出业同业公会 Taiwan Lighting Fixture Export Association
主题 Theme	台湾LED照明技术的应用 Taiwan SSL Lighting Technology
展团亮点 Pavilion Highlights	<p>参展商将带来涵盖整个LED产业链的技术与应用，包括测试设备及基材、LED技术、LED室内及户外照明、自动化照明等。</p> <p>A showcase of LED technologies and applications across the LED value chain, including components and testing equipment, modules, automotive lighting, industrial lighting, commercial lighting and outdoor lighting.</p>

## 台湾展团主办单位简介 Introduction of Taiwan Pavilion Organiser

### 台湾区照明灯具输出业同业公会 Taiwan Lighting Fixture Export Association

台湾区照明灯具输出业同业公会是由台湾地区经营照明灯具及相关零配件厂商共同组成的工商团体，于西元 1989 年在台北成立；立会宗旨以推广国际贸易、促进经济发展、协调同业关系、增进共同利益为目标。由创会的七十余家会员，到目前维持近有八百家公司，在台湾地区是一个组织健全壮大的工商职业团体、活力充沛的为业公会。

The association was founded in 1989 in Taipei, Taiwan. TLFEA is an organisation composed of manufacturers, distributors in the field of lighting fixture industry. The purposes of the association are to promote international trade, and perform functions and activities in order to enhance the communications and interactions among members for better services to their customers in the market. The number of TLFEA members has now arisen to above 800 mark from the original number of 70's at the outset of this association. The association is well regarded by the industry and the public for its good performance.

# Aitek

### 亚利通科技股份有限公司 Alitek Technology Corp.

展位号 Booth no.: 11.2 C01

亚利通专注于发展照明电源管理芯片控制方案，包含 LED 低谐波可控矽调光、PWM 调光及节能灯芯片方案应用，方案成本低及高性价比具高度竞争力。

Alitek technology is focusing on power management solutions for lighting. Major products are Low THDi Triac and PWM dimmable, CFL and Ballast. All of products are low BOM cost and high performance.

### 丽光科技股份有限公司 Beautiful Light Technology Corporation

展位号 Booth no.: 11.2 B02

BLTC 窄射灯是集工业设计，最先进的 LED 技术和优质光学系统于一体。与传统 CDM 光源相比，节能效果显著，照明效果也十分相近。精益求精的结构设计，实现了外形风格自由组合且寿命长达 40000 小时，维护成本极低。完美的整体设计实现了光照强度和色彩呈现的完美平衡。

BLTC narrow spotlight is integration of industrial design, optical design and with most advanced LED technology. The lighting effect is very similar to the traditional CDM light source and with better efficiency. The mechanical design of the lamp has demonstrated a modern look and with lifetime of 40,000 hour and low maintenance cost. The perfect design is creating a balance between the light intensity and color.

# EMPREX

### 英群企业股份有限公司 Behavior Tech Computer Corp.

展位号 Booth no.: 11.2 D05

- 高散热散热塑胶专利外观设计
- 超轻量化，业界第一——突破性产品
- 日本一线大厂验证通过，品质保证
- 利用专利 Reflector 设计可达 75 度
- 省下大型灯罩空间与成本问题
- 广泛应用于室内和室外场合，如工厂，地下室，仓库，大礼堂，体育场馆，停车场....
- 采用宽压及高压电源设计，符合绝大多数国家需求。

- Full range power input: 100~310Vac
- Lightweight indoor high bay LED light and lower power consumption
- To replace Mercury/HPS bulb directly, save 80% power.
- Quick lighting on, no warm-up delay, no flicker.
- Safe light source, No UV & IR
- No pollution, recyclable, meet ROHS compliant.
- Able to be used in factory, warehouse, supermarket, hotel etc.

## 浚光光学科技 (股) 有限公司 Chun Kuang Optics Corp

浚光光学由一群累积数十年经验的技术团队组成, 拥有光学、机构、模具设计及光学塑胶射出等专业技术, 我们的产品广泛应用于商业照明、室内室外照明、街灯照明及医疗照明等领域; 并着重在开发高效能 CoB 透镜、超薄变焦透镜、低眩光超广角车尾灯透镜、月晕光斑透镜及火焰光蜡烛灯透镜... 等多元化的产品以期能满足客户的需求。

We gathered some experienced experts in optical design, mechanical design, mold design, and optical plastic injection. We provide high precision & stable optical components and complete service for our customers.

We focus on the high-ended LED lighting lens such as the high intensity lens for COB led, Ultra-Thin Multi-Angle Zooming lens, Vehicle Tail Light Glareless LED lens, high efficiency stage LED lens, Soft Shading lens and Flame Candle LED light Lens..etc. Besides, we still keep developing many kind of lens to fit the requirement of our customer.

## 艾笛森光电股份有限公司 Edison Opto Corporation

艾笛森光电公司总部成立于 2001 年 10 月, 座落于台湾新北市中和区, 拥有实力坚强的研发及业务团队, 专门设计与制造高功率 LED 产品, 为因应市场高速成长的产能需求并扩大服务版图, 艾笛森分别于中国东莞及扬州设立厂房, 并于美国设立子公司, 藉由先进的厂房设备及全球绵密的服务网络, 艾笛森可为世界各地的客户提供完整的产品支援与迅速的交期服务。

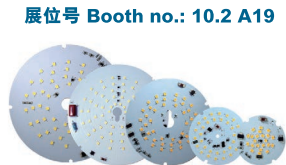

Edison Opto has established the headquarters in Chung-Ho Dist, New Taipei City, Taiwan since October, 2001. Edison Opto is a professional LED manufacturer which specialized in designing and producing High-power LEDs, solid state lighting applications, LED sensors and SPDIFs. In response to the rapid growth of capacity demand, Edison Opto has established factories in Dongguan and Yangzhou. Besides, in order to expand the service domain, Edison Opto has established subsidiaries in USA and Germany. Based on the worldwide service network, Edison Opto provides customers with complete product support and prompt delivery services.

展位号 Booth no.: 10.2 B02

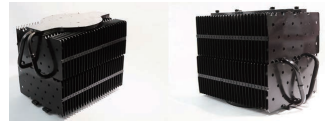

**力致科技股份有限公司**  
**Forcecon Tech Co Ltd**

**展位号 Booth no.: 11.2 C18**

现况大功率 LED 灯具可达 500W 以上，其能量密度趋近  $50W/cm^2$ ，习用多支热导管的解热方案已渐被均温板 (VC) 取代，因单支热导管无法提供足够热传递能力及能量密度，而均温板在长距离大面积不易制作且成本高，力致回路式热管则具优异的长距离热传导能力及抗重力操作，高功率 LED 结合力致回路式热管之解热方案，可满足大功率 LED 热扩散需求，降低操作温度  $T_j$ ，延长 LED 寿命。

Currently high power LED light is over 500W and power density can reach  $50W/cm^2$ . Conventional thermal solution w/ multiple heat pipes has gradually been replaced by Vapor chamber. Because of heat pipe's insufficient heat transfer capacity and power density and the vapor chamber's fabrication uneasily and much higher cost in large size, Forcecon's new loop heat pipe has excellent thermal transportation capability for long distance and better antigravity operating. By using Forcecon's new loop heat pipe module, you can solve high power LED thermal issue and decrease junction temperature to extend the operating life of the LED light.

## 恒日光电股份有限公司 Lighten Corp.

恒日光电位于台湾桃园致力于高导热 (铜基板)、高信赖性、宽可视角、COB 多晶封装、易组装、无暗区 LED COB 产品封装之专业制造开发。

专为天井灯、工矿灯、投光灯、隧道灯、路灯等面光源灯具与专业舞台摄影灯之高效模组。

全方面客制化服务 & 设计, 包括瓦数规格、色温规格 (1600K~20,000K)、显指范围 (Ra65 - Ra98)。

Taiwan Taoyuan, Lighten Corp Ltd, we are expertise on LED high power COB solutions, our products are suitable for most your fixture applications, especially for high bay, spot lighting, projection lighting, street lighting, plant growth light ...high power COB, we can cover all your COB needs from 5 to 500 W ranges, and with high efficiency & high Ra values (65~98) and wide range of CCT offering (from 1600K~20,000K).

we are main apply by copper substrate which is the best commercial metal material with outstanding heat transferring, especially for high power areas... so we can ensure the COBs with longer life time and less efficacy decay. If possible you can visit our Web site to know about us, thanks again and looking forward to have your reply soon.
