**American & Efird LLC
China**

American & Efird (A&E), a global leader in industrial sewing thread manufacturing, today announced the official launch of a new product in reflective innovation, Anefil™ Reflector. Anefil™ Reflector is a reflective, specialty industrial sewing thread used in coverstitch and overedge applications for use primarily in activewear, workwear, safety apparel, swimwear, denim, footwear and other reflective markets.

“A&E’s spirit of innovation continues with this new reflective product, Anefil™ Reflector,” said Mark Hatton, Vice President Americas. “Offered in a Tex 120 size, Anefil™ Reflector adds another layer of functionality in sewing that has traditionally been dominated by reflective tape. This product is a versatile, decorative sewing thread and a valuable addition to the reflective market.”

**Freudenberg & Vilene International Ltd
Germany**

Freudenberg has developed a new thermal insulation: the comfortemp® fiberball paddings of Freudenberg Performance Materials, a Freudenberg Business Group. These paddings insulate more than twice as well as traditional paddings—and they are as light-weight and soft as down. With the “Superlight Parka” the lifestyle brand Napapijri will be placing its own THERMO-FIBRE® technology “powered by comfortemp®” on the market for the 2017 fall/winter season. [Full story](#)
