Iris Co., Ltd.

5.1-C76

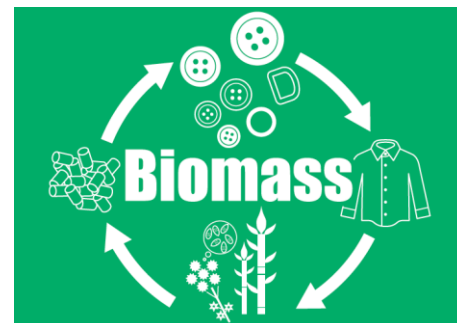

Japan

Product: Buttons

Being always environmentally conscious, we have been improving our production systems to reduce impacts on global environment, and various kinds of our products fulfill requirements of international ecological certifications. We hold certifications of STANDARD 100 by OEKO-TEX® for most of materials and have both ISO9001 and ISO14001.

Development, presentation and promotion of environmentally friendly products is one of production policies. We produce some items made of plant-based biomass materials, which do not use fossil fuel, and enhance production of trimmings using biodegradable polyester, recycled polyester and natural materials. Production with biomass materials takes full advantages of “Carbon neutrality”, which prevents global warming and builds sustainable society.

Our environmental preservation activities respect future ecology of our planet. <http://www.iris.co.jp/english/>
