Z-Wave Alliance

## 2015 Insight

Z-Wave is a wireless communications protocol designed for home automation. By exhibiting at the fair, we aim to educate the market on the Z-Wave technology and demonstrate how it connects with other products. The fair is an important platform for us to tap the China market and we are looking forward to the 2015 edition.

*Mr C. K. Sze, Z-Wave Evangelist, Z-Wave Alliance,*

## 2015 Intelligent Building & Smart Home Standard Forum Series

### Past prominent record

#### The Z-Wave Alliance and its co-exhibitors enjoyed a highly successful showing in China

At SIBT 2013, a full day of Z-Wave presentations for the Chinese market was eagerly attended to get success in the booming Chinese market for home controls and automation, and Z-Wave had the inside track.

Received great support from its co-exhibitors, distributors who showcased Z-Wave products, including these renowned worldwide brands: Aeon Labs/Aeotec, AMC/Cocoon, Dorlink, Fantem, Focal Point, Follow Good, G-Trend, GR, Locstar, MCO Home, MTLC / SmartWave, NorthQ, Vision Security, Remotec, Sigma Designs, Switch DIY / Wintop, TKB Home, Ubitech, etc

#### Z-Wave Smart Home Control Seminar

It demonstrated the Z-Wave technology for smart home and business applications. It shared wireless technology into every conceivable area of controlling and monitoring for residential and commercial environments.

### Z-Wave Technical Forum

24 / 9 / 2015 ( 13:30 – 16:00 )
